

# Introduction

## 5000t Forging Press

Taiyuan Forging Trading Co., Ltd., located in Taiyuan, Shanxi Province, China, is a professional manufacturer and supplier in forged products. The forgings produced by the company are widely used in energy, petrochemical, refinery, power generation, oil & gas exploration and production industries. Our product includes flange, ring, blind flange. We also produce connections for pressure vessels-- long weld neck flange, HB, nozzles, studing outlets, large diameter flanges and blinds. In addition to pressure vessel connections, we produce companion flanges, casing heads, tubing head adapters, casing and tubing spools, cylinders, discs. Besides the products listed above, we also manufacture wheels, shafts, wheel and shaft assembly, rotor shafts, gear shafts, rotor shafts, intermediate shafts, rudder stocks. Other forged products can be supplied as per specification required.

We forge products in carbon, alloy and stainless steel; we also forge products in nickel, titanium and other specialty alloys on request.

We sell our forged products to both domestic and overseas markets. Long terms business relationship have been established between our company and our customers. We will continue to meet the needs of our customers by manufacturing and supplying high quality products and perfect services.
